

PROFESSIONAL PROFILE

A skilled data annotation with a record of providing meticulous and high-quality annotations across diverse datasets. Proficient in utilizing advanced annotation techniques and tools to accurately label, segment, and classify various types of data, including text, images, audio, and video. Deep understanding of domain-specific knowledge and annotation guidelines, enabling contextually relevant annotations that contribute to the success of machine learning and data analysis projects

PROFESSIONAL EXPERIENCE

iMerit Technology Service Private Limited – *ITES Executive-Projects [Coordinator]*

July 2023 – July2024

KEY Responsibilities

- Accurately annotating and labelling data according to predefined guidelines and specifications, ensuring high-quality and consistent annotations for machine learning and data analysis purposes.
- Conducting thorough quality checks and validations on annotated data to identify and rectify any errors or inconsistencies, maintaining data integrity and reliability.

Additional Objectives

- As successfully served as a [Team Coordinator] and project delivery in UVeye. Acting as key responsibilities in my role we developed a large amount of production all across the world.
- Mainly work is divided in three main categories : **Atlas, Artemis, Helios**
- **Atlas**- UVeye's flagship exterior scanner capable of revealing damages for larger commercial vehicles enabling efficient safety monitoring and predictive maintenance reporting. Atlas provides detailed quality assurance and paint inspection for OEM manufacturers.
- **Artemis**- Wheel & tire automated inspection systems that scan both the sidewall and tread angles, including tire info, tread depth, uneven wear & wheel damage. Find all data Artemis provides in our interface with interactive reports.
- **Helios**- Underbody scanner that produces high-resolution imagery in seconds. Machine learning algorithms expose mechanical and safety issues, providing a detailed report.

KEY ACHIEVEMENTS/CERTIFICATIONS

- The first award is the Best AI Application of the Year for its newly launched data annotation and automation platform, the Ango Hub.
- Efficient implementation of production, integrity & maintenance excellence standards within the Assets, incorporating commissioning, multiple projects (50+)
- AIML and Full Stack Development Certifications conducted by Metvy

SKILLS

- Semantic Segmentation
- My SQL ,Data Management
- C, C++, JAVA, Python, HTML
- MS Office, MS Word, MS PP, MS Excel
- Cloud Computing
- Bonding Box Annotations
- Networking Polygons

EDUCATION AND QUALIFICATIONS

- Pursuing MCA in Chetan Business School, Hubballi
- BCA-Bachelor of computer Application in KUD University KLE society.
- PUC-Gov of KA Pre-University Education.

April-2023

March-2019

COURSES

- Deshpande Education Trust (DET) completed courses in physical and hardware networking.
- IBM Skilling's completed course in cyber security
